- Responsible for creating user interface according to Figma design.
- Responsible for the implementation of APIs and their subsequent use.
- Technologies we used: **TalwindUI, TypeScript, ReactJS, Git, RecoilJS.**

We have achieved: Convert your Excel spreadsheets to responsive web calculators. Mark input and output cells, set your own in inputs values and then let the tool do the rest. When your calculator ready, you can embed it in your website or link it to to your e-shop via API.

Education

Stredná priemyselná škola elektrotechnická, Bratislava

2016 – 2020
